Of the municipal concerns, the three biggest that keep coming out among residents are:</p> <ol style="list-style-type: none"> 1. The importance of protecting our waterfront and green spaces (protection of the East Shore waterfront from development and privatisation, as well as safe decisions for the nuclear plant made with city officials and employees in mind), 2. Intensification along Kingston Road (specifically ensuring that development is done mindfully, in a climate-friendly way, and that the city infrastructure such as sewage, electrical, etc. as well as schools and stores are all developed alongside), and <p>Transportation and infrastructure development (such as overhauling and redesigning our transit infrastructure in Pickering to move towards greener vehicles, and to encourage more people to take public transit, as well as ensuring there are enough parking lots and spots to accompany whatever new development comes along)."</p>
